  - c. The tree is a designated Specimen or Historic Tree
2. Photo of tree(s) proposed for removal
3. Development plan/Landscape plan

October 9, 2017

Dear Parks and Recreation board Member,

This tree is a volunteer black baring olive tree which is getting to tall and is growing into my neighbors tree.

The tree is also dropping tons of black olives onto the sidewalk, parkway and cars parked on the street.

I have observed that the olives make it difficult for mothers with baby strollers to walk over the olives and for their small children to ride their bicycles on the sidewalk.

The olives are very slippery to step on and because the olives have seeds they cause your foot to roll and sometimes twist your ankle which I and the gardeners have experience while doing cleaning up. I fear that someone may fall and get hurt.

This sidewalk is used by many neighborhood mothers on a daily basis who pick up their children who attend Harding Elementary School.

Please take into consideration my reasons for requesting this olive tree be removed from the parkway in front of my property.

Thank You,  
Regards,

Sally Glasgow
